

Step 3: Enable Journaling for All Users of MDaemon Server

1. In the **MDaemon Console**, Select **Setup > Default Domain & Servers**
 2. In the navigation pane on the left, select **Archiving**
 3. To setup mdaemon email journaling (for every inbound and outbound message), check **Send copies of all inbound and outbound mail to these addresses**.
 4. Specify the email address **journal@{domainprefix}.vaultastic.com**
 5. Click **OK** to save your changes
