Add a migration job

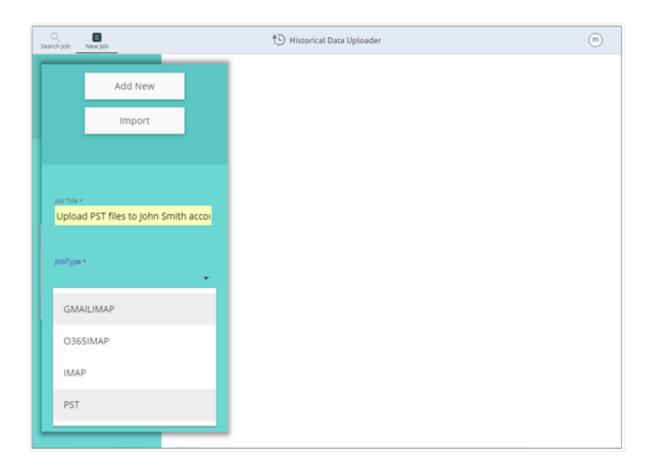

- Login (https://docs.mithi.com/home/how-to-login-to-the-historical-data-upload-application) to the Historical Data Upload application.
- 2. Select **New Job** from the top menu.

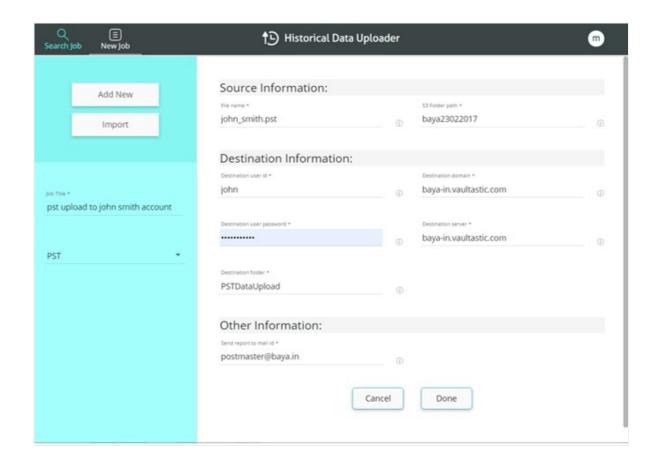

3. Click the Add New button.

- 4. Give a suitable **Title** to the Job.
- 5. Select the **Job Type** (https://docs.mithi.com/home/frequently-asked-questions-about-the-historical-data-upload-application#what-are-the-different-job-types-supported-) from the list of supported types.

5. Depending on the Job Type selected, an input form will be displayed. Fill in the form with the required details and click the **Done** button.

6. The job will be added to the list. The newly added job will automatically enter the Pending state. To verify the input or start the job, refer to Verify Job Parameters (https://docs.mithi.com/home/how-to-verify-the-input-parameters-of-a-migration-job-in-the-historical-data-upload-application) or Start a job (https://docs.mithi.com/home/how-to-start-a-migration-job-in-the-historical-data-upload-application) .
