

Update the input parameters of a migration job

Jobs in the **Pending** or **Invalid** State can be edited.

1. In the **Status** column, hover the mouse over **Options** icon (depicted by three vertical dots).
2. Click the **Edit** icon.

3. Proceed to [Verify Job Parameters](https://docs.mithi.com/home/how-to-verify-the-input-parameters-of-a-migration-job-in-the-historical-data-upload-application) to check the new values or select [Start](https://docs.mithi.com/home/how-to-start-a-migration-job-in-the-historical-data-upload-application) to execute the job.
