Step 3: Configure Mail Flow Between SkyConnect & O365 Co-Existence

Configure SkyConnect for the mail flow

1. Share the MX record value recorded in the Step 1 (https://docs.mithi.com/home/how-to-provision-domain-on-o365-and-skyconnect-in-a-co-existence-setup) with the deployment team at Mithi to configure the mail flow from SkyConnect to O365.

2. The Mithi deployment team will make the necessary changes on the SkyConnect server
