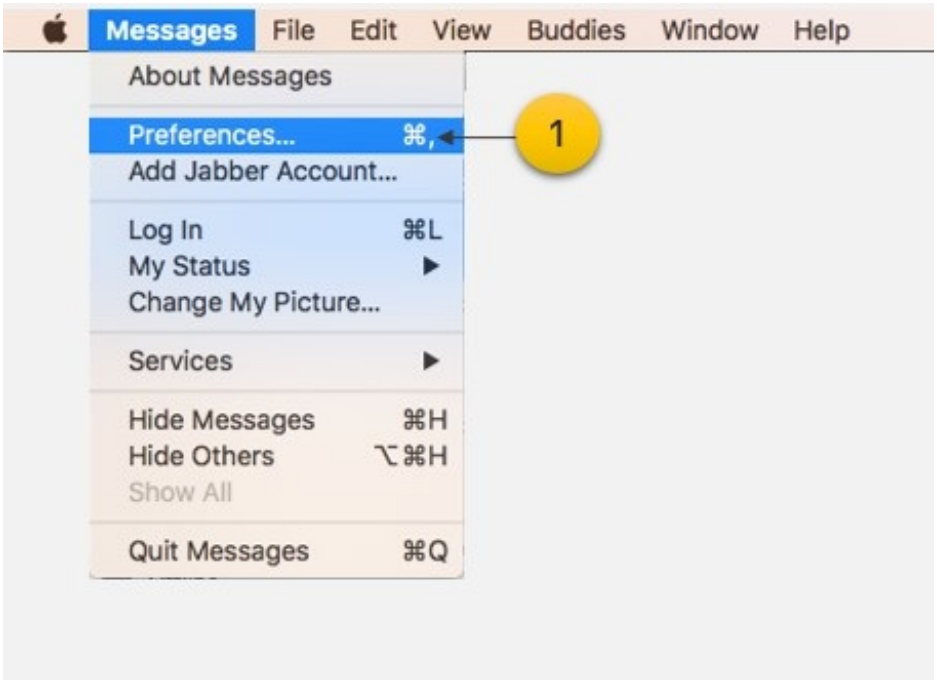
Chat application on Apple Mac

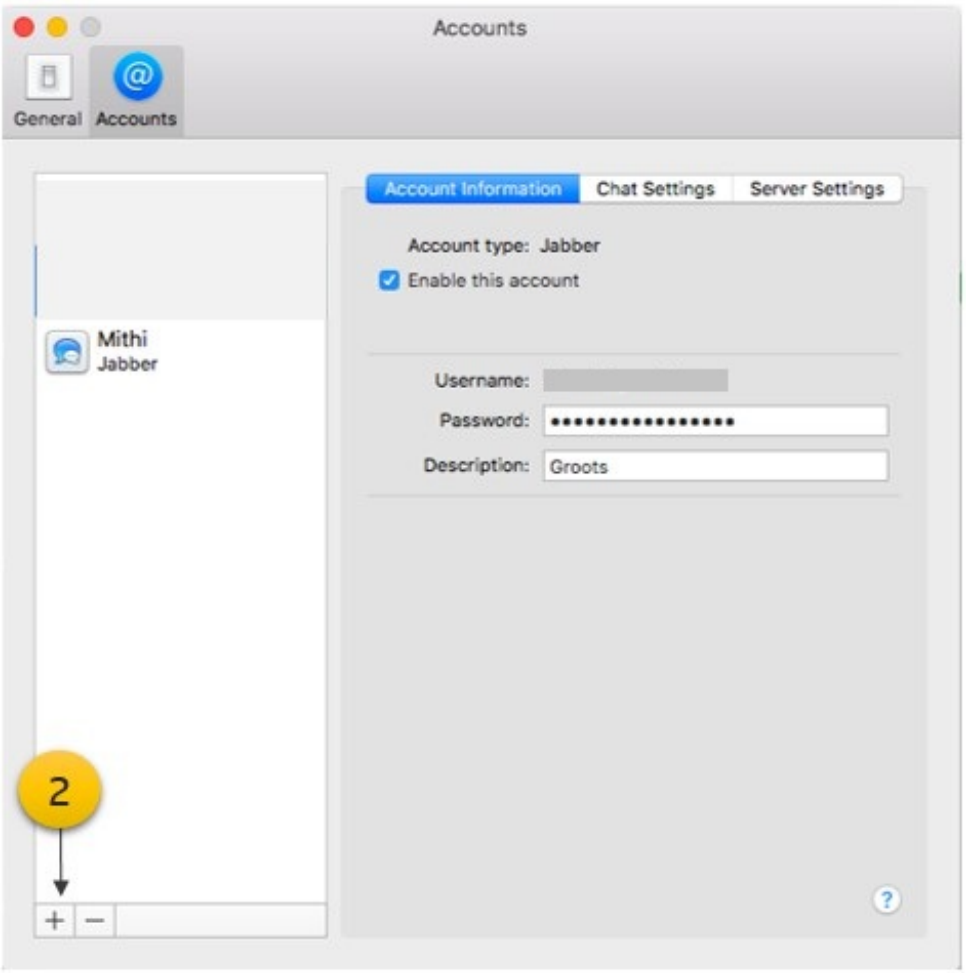
Configure chat account on Apple Mac Book

> Please note following configuration is applicable for **Mac OS High Sierra** and **prior** versions only.

1. Go to the **Messages** > **Preferences** screen



2. Clicking the **Plus** sign will open the **Accounts** window



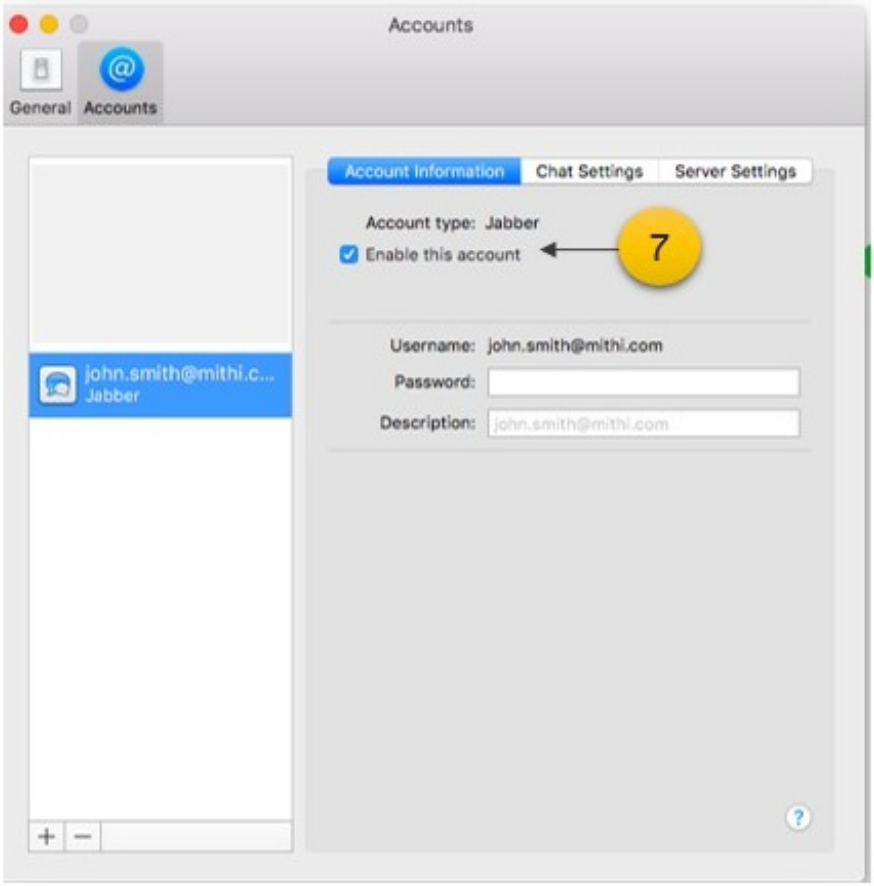
3. Add **User Name** and **Password** of your account

4. Click the **Sign In** button to proceed

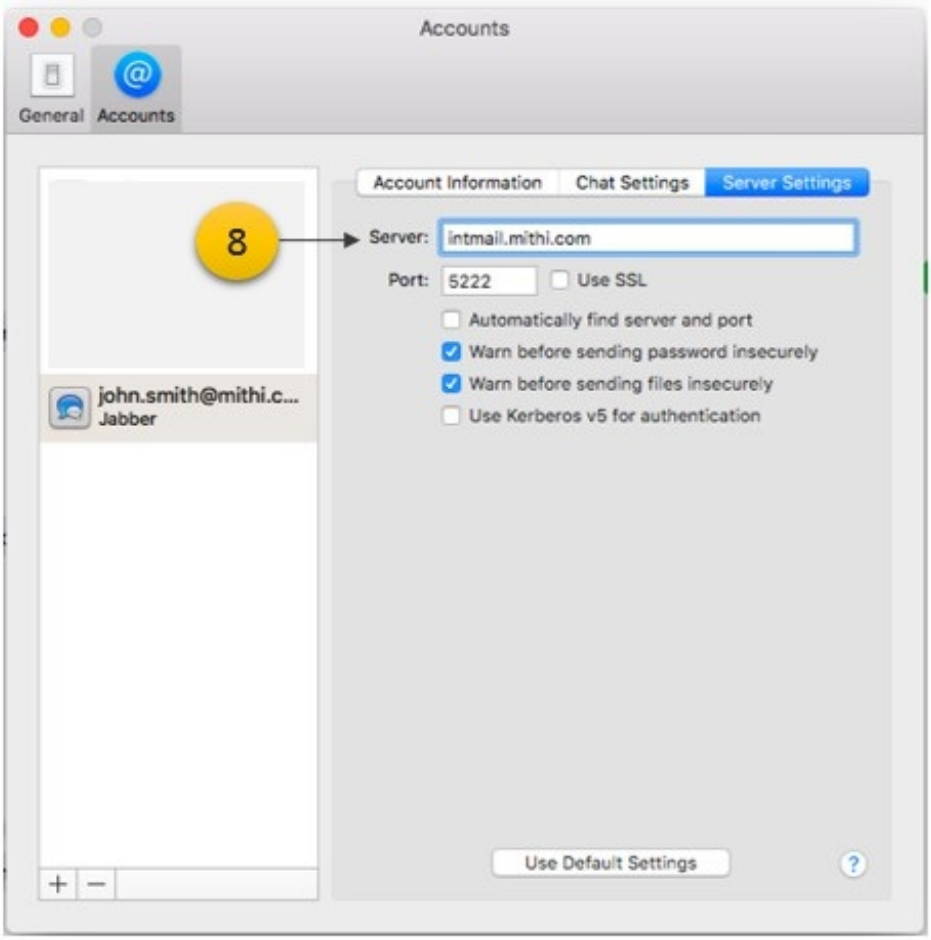
5. Re-enter your password if asked

6. Click the **Log In** button to open the chat application

7. **Enable** your account to get started



8. Select the Server Settings tab and enter **Server** and **Port** value **5222.**



9. On successful configuration, go to the Buddies tab to view the roster

10. Click a contact on the roster to exchange the chat messages
