

Customize your Ideolve account

Overview

Manage your account details using the Settings sections of Ideolve. Using the options provided on the Settings pane you can update your primary details, password, and the option to receive summary reports. Also, find the integration details required to connect to the third-party applications.

Update Primary details

- a. [Login to Ideolve](https://docs.mithi.com/home/how-to-log-in-to-ideolve) (<https://docs.mithi.com/home/how-to-log-in-to-ideolve>)
- b. On the top of the Application bar, clicking the Profile photo will open the options pane
- c. Click the Settings icon to open a pane showing your account details
- d. Under the **Account** section, clicking the **Primary details** option will open the details pop-up window
- e. Click the **camera** icon to set your profile photo.
- f. In the **Display Name** box, enter the name to be displayed.
- g. Click **Save**.
- h. Click **Reset** to revert the changes you have made

Reset password

- a. [Login to Ideolve](https://docs.mithi.com/home/how-to-log-in-to-ideolve) (<https://docs.mithi.com/home/how-to-log-in-to-ideolve>)
- b. On the top of the Application bar, clicking the Profile photo will open the options pane
- c. Click the Settings icon to open a pane showing your account details
- d. Under the Account section, clicking the **Update Password** option will open the **Update Password** pop-up window
- e. In the **Old password** box, enter the current account password
- f. In the **New password** box, enter a new password to be set
- g. In the **Confirm password** box, re-enter the new password to be set
- h. Click **Save** to update the password

Receive summary reports

- a. [Login to Ideolve](https://docs.mithi.com/home/how-to-log-in-to-ideolve) (<https://docs.mithi.com/home/how-to-log-in-to-ideolve>)
