Archive to Vaultastic

Configure SkyConnect user and domain properties to archive mail on Vaultastic.

Enable email archiving for SkyConnect/ConnectXf users (https://docs.mithi.com/home/how-to-enable-email-archiving-for-skyconnect-or-connectxf-users)

Enable the email archiving for the users of your SkyConnect / ConnectXf domain using the Admin panel (https://docs.mithi.com/home/how-to-login-to-the-skyconnect-admin-panel). To start archiving of email transacted on your SkyConnect domain, you need to enable archiving for the domain and users.

Enable email archiving for SkyConnect/ConnectXf groups (https://docs.mithi.com/home/how-to-enable-email-archiving-for-skyconnect-or-connectxf-groups)

SkyConnect allows you to archive emails sent to the groups on Vaultastic. Mail received to all the groups on SkyConnect are stored in a dedicated Vaultastic account. Members of the group can log in to the self-service portal (https://docs.mithi.com/home/how-to-login-to-the-self-service-portal-of-vaultastic) and access this Vaultastic account. Using the eDiscovery (https://docs.mithi.com/home/how-to-use-the-ediscovery-view-to-quickly-locate-mail-or-do-a-compliance-check) feature of the Vaultastic group members can search the mail quickly and easily.
