[Want to submit multiple jobs using CSV?](#)

Preparation

- [Upload PST data files to S3 bucket](https://docs.mithi.com/home/how-to-upload-email-data-files-to-s3-bucket) (<https://docs.mithi.com/home/how-to-upload-email-data-files-to-s3-bucket>)

Import PST to Vaultastic4

- After uploading the data files to S3, the next step in the process is to migrate the data into Vaultastic4 accounts using the LegacyFlo application.
- For each PST file submit a separate request.
- To submit multiple requests, manually create and upload a CSV.
- When [submitting a request](https://docs.mithi.com/home/how-to-submit-a-data-migration-request-in-the-legacyflo-application) (<https://docs.mithi.com/home/how-to-submit-a-data-migration-request-in-the-legacyflo-application>) to upload PST data, select PST-VAULTASTIC4 as the Request Type.
- Provide **PST details under the Source information** section.
- Provide **Vaultastic 4** server details under **Destination information** section.
- Refer to the following tables to understand the description and sample values of the fields.

Source information (PST Files)

Destination Information (Vaultastic 4)
