## Table of Contents

[Preparation](#)

[Import EML to Vaultastic4](#)

[Source Information \(EML Files\)](#)

[Destination information \(Vaultastic4\)](#)

[Other Information](#)

[Want to submit multiple jobs using CSV?](#)

## Preparation

- [Upload EML data files to S3 bucket](https://docs.mithi.com/home/how-to-upload-email-data-files-to-s3-bucket) (<https://docs.mithi.com/home/how-to-upload-email-data-files-to-s3-bucket>)

## Import EML to Vaultastic4

- After uploading the data files to S3, the next step in the process is to migrate the data into Vaultastic4 accounts using the LegacyFlo application.
- For each EML file submit a separate request.
- To submit multiple requests, manually create and upload a CSV. Use the help given in the following sections to define your requests.
- When [submitting a request](https://docs.mithi.com/home/how-to-submit-a-data-migration-request-in-the-legacyflo-application) (<https://docs.mithi.com/home/how-to-submit-a-data-migration-request-in-the-legacyflo-application>) to upload EML data, select **EML-VAULTASTIC4** as the **Request type**.
- Provide **EML file details under the Source information** section.
- Provide **VAULTASTIC4 server details under the Destination information** section.
- Refer to the following table to understand the description and sample values for the fields.

Source Information (EML Files)

Destination information (Vaultastic4)
