[Want to submit multiple jobs using CSV?](#)

## Preparation

- [Upload MBOX data files to S3 bucket](https://docs.mithi.com/home/how-to-upload-email-data-files-to-s3-bucket) (<https://docs.mithi.com/home/how-to-upload-email-data-files-to-s3-bucket>)

## Import MBOX to Vaultastic4

- After uploading the data files to S3, the next step in the process is to migrate the data into Vaultastic4 accounts using the LegacyFlo application.
- For each MBOX file, submit a separate request.
- To submit multiple requests, manually create and upload a CSV. Use the help given in the following sections to define your requests.
- When [submitting a request](https://docs.mithi.com/home/how-to-submit-a-data-migration-request-in-the-legacyflo-application) (<https://docs.mithi.com/home/how-to-submit-a-data-migration-request-in-the-legacyflo-application>) to upload MBOX data, select **MBOX-VAULTASTIC4** as the **Request type**.
- Provide **MBOX file details under the Source information** section.
- Provide **Vaultastic4 server details under the Destination information** section.
- Refer to the following screenshot and table to understand the description and sample values for the fields.

## Source Information (MBOX Files)

## Destination Information (Vaultastic4)
