

Getting API Key and Client Id for third-party integration

Overview

Use the Client Id and API Key to connect to the third-party apps. Find your integration details from the Settings section of Ideolve. Follow the steps mentioned below to obtain these details

1. [Login to Ideolve](https://docs.mithi.com/home/how-to-log-in-to-ideolve) (<https://docs.mithi.com/home/how-to-log-in-to-ideolve>)
 2. On the top of the Application bar, clicking the **Profile photo** will open the options pane
 3. Click the **Settings** icon to open a pane showing your account details
 4. Clicking the **Integration Details** option will open a pop-up window showing the Client ID and API Key.
 5. Copy and use the **Client ID** and **API Key** to integrate with third-party applications.
