Overview

Using LegacyFlo you can migrate email data from Vaultastic V4 Active store to the Open store

Job types for Active to Open

The request type used to submit a LegacyFlo request will depend on the destination data type. The table below gives the details of the request parameters for different destination data file types:

REQUEST TYPE	DESCRIPTION	WHEN TO USE THIS JOB TYPE
VAULTASTIC4-S3-PST	<ul style="list-style-type: none">This is a generic job to copy content from VV4 Active Storage Vault to any S3 bucket. The data is converted into a PST data file.You can decide the date filter and the destination when using this job type.	Use this if you need a single data file with contents across multiple months
VAULTASTIC4-S3-ZIP	<ul style="list-style-type: none">This is a generic job to copy content from VV4 Active Store Vault to any bucket. The data is copied to a ZIP file containing the EML files for each mail.You can decide the date filter and the destination when using this job type.	Use this job type if you need a single data file with contents across multiple months.
VV4-MOVETOINACTIVE-EML	<ul style="list-style-type: none">This job is a very specific job to copy a month's data in a vault on the Active Store to the domain's Open Store. The data is copied to a ZIP file containing the EML files for each mail.Click here (https://docs.mithi.com/home/VV4-MOVETOINACTIVE-EML) for the details of the request parameters.	Recommended job type to copy data from Active to Open Storage to create data files for each vault.

REQUEST TYPE	DESCRIPTION	WHEN TO USE THIS JOB TYPE
VV4-MOVETOINACTIVE-PST	<ul style="list-style-type: none"> This job is a very specific job to copy a month's data in a vault on the Active Store to the domain's Inactive Store. The data is converted to a PST file. Click here (https://docs.mithi.com/home/VV4-MOVETOINACTIVE-PST) for the details of the request parameters. 	Recommended job type to copy data from Active to Open Storage to create data files for each vault.
VV4DOMAIN-MOVETOINACTIVE-EML	<ul style="list-style-type: none"> This job is a very specific job to copy a day's data for a domain on the Active Store to the domain's Open Store. The data is copied to a ZIP file containing the EML files for each mail. Click here (https://docs.mithi.com/home/vv4domain-movetoinactive-eml) for the details of the request parameters. 	Recommended request type to copy data from Active to Open Store for large domains where the dedup on the Active Store is significant.
VV4DOMAIN-MOVETOINACTIVE-PST	<ul style="list-style-type: none"> This job is a very specific job to copy a day's data for a domain on the Active Store to the domain's Open Store. The data is copied to a ZIP file containing the EML files for each mail. Click here (https://docs.mithi.com/home/vv4domain-movetoinactive-pst) for the details of the request parameters. 	Recommended request type to copy data from Active to Open Store for large domains where the dedup on the Active Store is significant.

Active Store details

To know the Active Store details,

1. [Log in](https://docs.mithi.com/home/how-to-log-in-to-the-admin-panel) (https://docs.mithi.com/home/how-to-log-in-to-the-admin-panel) with a vault id having an [admin role](https://docs.mithi.com/home/how-to-assign-administrative-roles-in-vaultastic) (https://docs.mithi.com/home/how-to-assign-administrative-roles-in-vaultastic)
2. In the left pane, click on the **Vaultastic domain** and select **Vaults**. The middle pane will show the list of vaults in the selected Vaultastic domain.
3. Click the vault summary shown in the middle pane
4. The details pane will now show the details of the selected vault
5. Get the Vault ID and Vault password

Open Store details

To know the Open Store details,

1. [Log in to Vaultastic](https://docs.mithi.com/home/how-to-log-in-to-the-admin-panel) (https://docs.mithi.com/home/how-to-log-in-to-the-admin-panel) and navigate to the Open Store

2. Refer to the screenshot below to know where to find the bucket name, folder path, file names

- **Bucket:** The Open Store bucket for your domain as displayed on the Open Store App
- **Folder Path:** Your Vaultastic domain as displayed on the Open Store App
- **File:** The file name on the Open Store

The screenshot shows the 'Inactive Store' interface. At the top, there is a search bar and a dropdown menu for the domain 'archive.mithi.com'. Below this, a breadcrumb path is shown: 'sng1-be-vaultastic-logs-staging' (highlighted in yellow) > 'archive.mithi.com' (highlighted in blue) > 'Fetched 4 of 4 files'. A table lists four files, each with a checkbox, file name, file size (265.0 KB), last modified date (Friday, January 29, 2021), and a 'Move to Active' button. The first file's name is highlighted in green: '/2021-01-29T09-41-41.585Z-mark_williams_30122020.p...'. A legend at the bottom explains the highlights: a yellow box for the bucket name, a blue box for the folder path, and a green box for the file name.

File Name	File Size	Last Modified	Sort by
<input type="checkbox"/> /2021-01-29T09-41-41.585Z-mark_williams_30122020.p...	265.0 KB	Friday, January 29, 2021 3:11:43 PM	Move to Active ↓ 🗑️
<input type="checkbox"/> /2021-01-29T09-43-42.347Z-geet_rathod_23122019_to_...	265.0 KB	Friday, January 29, 2021 3:13:43 PM	Move to Active ↓ 🗑️
<input type="checkbox"/> /2021-01-29T09-43-43.043Z-mahesh_sahu_23122019_to_...	265.0 KB	Friday, January 29, 2021 3:13:44 PM	Move to Active ↓ 🗑️
<input type="checkbox"/> /2021-01-29T09-43-43.194Z-mark_williams_30122020.p...	265.0 KB	Friday, January 29, 2021 3:13:44 PM	Move to Active ↓ 🗑️

■ **Bucket name:** The Inactive Store bucket for your domain (Example: sng1-be-vaultastic-logs-staging)
■ **Folder Path:** Your Vaultastic domain (Example: archive.mithi.com)
■ **File name:** The file name on the Inactive Store (Example: 2021-01-29T09-41-41.585Z-mark_williams_30122020.pst)
