Moving Data from Vaultastic Open Store and Active Store

Overview

Using LegacyFlo you can migrate email data from Vaultastic V4 Open Store to Active Store

Job types for Open to Active

• The request type used to submit a LegacyFlo request will depend on the source type. The table below gives the details of the preparation and request parameters for different source types:

REQUEST TYPE	DESCRIPTION
PST-VAULTASTIC4	 Use this request type to import data from a PST file to a Vaultastic V4 account.
EML-VAULTASTIC4	 Use this request type to import data from an EML file to a Vaultastic V4 account.
MBOX-VAULTASTIC4	 Use this request type to import data from an MBOX file to a Vaultastic V4 account.
MAILDIR-VAULTASTIC4	 Use this request type to import data from a MAILDIR file to a Vaultastic V4 account.
VV4-MOVETOACTIVE-EML	 Use this request type to move EML data file from Vaultastic Open Store to Vaultastic Active Store Click here (https://docs.mithi.com/home/VV4-MOVETOACTIVE-EML) for the details of the request parameters. Active Store details
VV4-MOVETOACTIVE-PST	 Use this request type to move the PST data file from Vaultastic Open Store to Vaultastic Active Store Click here (https://docs.mithi.com/home/VV4-MOVETOACTIVE-PST)for the details of the request parameters. Active Store details

Get the request parameters

To get the request parameters,

- 1. Log in to the Open Store app (https://docs.mithi.com/home/how-to-access-the-open-store)
- 2. Search the data file from the list
- 3. Click the Move to Active button next to the file name.

4. A pop-up window will show you the LegacyFlo request parameters required to move data from the Open to the Active Store.
