Overview

- This document contains parameter details required when moving PST data files from Vaultastic Open to Active Store
- Select VV4-MOVETOACTIVE-PST request type to migrate data from data file from Vaultastic Open to Active Store
- In the VV4-MOVETOACTIVE-PST request type, Vaultastic Open Store will be the source and Vaultastic Active Store will be the destination.
- Email data from the Vaultastic Open Store will be migrated to the Vaultastic Active Store.
- Make sure you have performed preparation steps on the Vaultastic V4

Preparation

- The LegacyFlo application can ingest data in EML, MBOX, MAILDIR, or PST format into Vaultastic or SkyConnect.
- These files have to be uploaded to the S3 bucket in the following manner

PST	<ul style="list-style-type: none">• Uncompressed• One file per SkyConnect / Vaultastic account• The maximum PST file size supported by the application is 48GB
EML / MBOX / MAILDIR	<ul style="list-style-type: none">• Compressed in ZIP format• One ZIP file per SkyConnect / Vaultastic account• The maximum zip file size supported is 48GB (uncompressed 48GB)

Source information (PST in Vaultastic Open Store)

FIELD NAME	DESCRIPTION	SAMPLE VALUE (TO UPLOAD TO VAULTASTIC)
Filename	PST file name on the S3 bucket Make sure that there are no forward slashes ("/") at the start or end.	john_smith.pst
S3 Folder path	The path on the S3 bucket. Enter your Vaultastic domain as displayed on the Inactive Store App <div style="border: 1px solid #ccc; padding: 5px; margin: 10px 0;"> For your credentials refer: What are the credentials to access S3 bucket? https://helpcenter.mithi.com/en/support/solutions/articles/48000948404 </div> <div style="border: 1px solid #ccc; padding: 5px; margin: 10px 0;"> Note: The value should not start or end with "/". Leave it empty when the file is not placed in any folder. </div>	archive.mithi.com
S3 Bucket Name	Name of the S3 bucket <div style="border: 1px solid #ccc; padding: 5px; margin: 10px 0;"> For your credentials refer: What are the credentials to access S3 bucket? https://helpcenter.mithi.com/en/support/solutions/articles/48000948404 </div> <div style="border: 1px solid #ccc; padding: 5px; margin: 10px 0;"> Note: Do not add the '/' character at the end of the S3 bucket name. </div>	sng1-be-vaultastic-logs-staging
Bucket Region	AWS region of the bucket Choose the value from the drop-down list	ap-southeast-1
