

Configure forwarding for selected ids

1. Login to IceWarp admin interface
 2. For ids whose live mail flow is to be archived on the Vaultastic Active Store, configure forwarding to the corresponding vault on the Vaultastic domain.
 3. For example, if the primary id is john.smith@acmecorp.in, and the Vaultastic domain is acmecorp-in.vaultastic.com, then the forwarding to be done to [john.smith@acmecorp-in.vaultastic \(\)](mailto:john.smith@acmecorp-in.vaultastic.com). Select the option for both sent and received mail.
