

Preserve ex-employee data on Vaultastic Open Store

Overview

4 easy steps to upload your ex-employee data to Vaultastic Open Store (secure cloud storage with easy access and retrieval)

Step 1: Sign up for Vaultastic. Receive Vaultastic and LegacyFlo credentials.

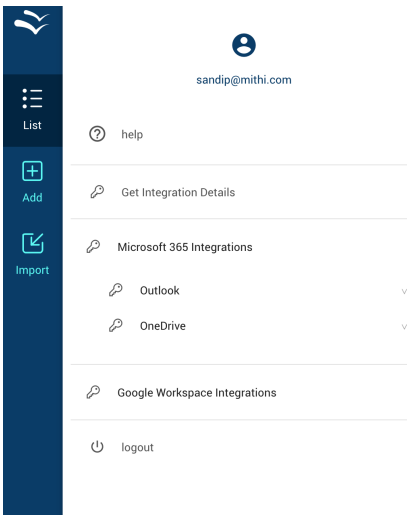

- Go to www.vaultastic.com (<https://www.vaultastic.com>) and sign up for a free trial. While submitting the form, mention your primary data source and domain.

- On submission of the form, the information will be verified. Your Vaultastic domain and a LegacyFlo account will be provisioned. **Vaultastic is the data archiving platform** and **LegacyFlo is the data migration platform**. **LegacyFlo will be used to migrate data from the mailboxes and drives to the Vaultastic Open Store.**

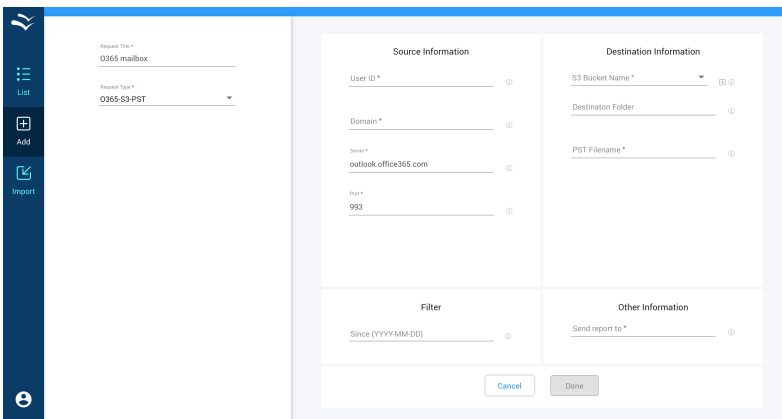

Step 2: Prime up the data source for access via LegacyFlo

- For LegacyFlo to access the data from the primary data source, access needs to be granted.
- The steps to do so are [documented here](https://docs.mithi.com/home/upload-from-a-mailbox-to-vaultastic-v4-open-store) (<https://docs.mithi.com/home/upload-from-a-mailbox-to-vaultastic-v4-open-store>).

Step 3: Submit requests for data migration to LegacyFlo.

- You will now submit [LegacyFlo requests to migrate the mailbox](https://docs.mithi.com/home/upload-from-a-mailbox-to-vaultastic-v4-open-store) (<https://docs.mithi.com/home/upload-from-a-mailbox-to-vaultastic-v4-open-store>) and drive data to the Vaultastic Open Store

Step 4: Use Vaultastic Open Store App to view, search and extract data on demand.

- Open the Vaultastic Open Store application

Open Store Upload archive.mithi.com
