Overview

This document contains parameter details required when submitting a request to generate the content-list or the metadata for all the files contained in the ZIP.

Source Information

FIELD NAME	DESCRIPTION	SAMPLE VALUE
S3 bucket name	<p>This field will come pre-filled with the bucket to host the Open store for your Vaultastic domain.</p> <p>If the source file is on another bucket, then you can change the bucket name.</p>	mithi-ind1-vaultastic-legacystore
S3 folder path	<p>If the file is from the Vaultastic Open Store, then this parameter will have the name of your Vaultastic domain.</p> <p>You can update this value if the source file is your own bucket. Give the folder in which the file is stored</p>	"baya-com.vaultastic.com"
File name	The source file name for which the content-list or metadata has to be generated.	john-jan-2021.zip
S3 bucket region	<p>The region in which the bucket is hosted.</p> <p>This value will come pre-filled with the region of the bucket hosting the Open Store for your Vaultastic domain.</p> <p>When the source is your own bucket, select the region for the bucket.</p>	ap-southeast-1

Destination Information

FIELD NAME	DESCRIPTION	SAMPLE VALUE
S3 bucket name	This field will come pre-filled with the bucket to host the Open store for your Vaultastic domain. If the source file is on another bucket, then you can change the bucket name.	mithi-ind1-vaultastic-legacystore
S3 folder path	If the source is the Vaultastic Open Store, then your Vaultastic domain name. If the destination bucket is your own, specify the folder in which the output file has to be copied	"baya-com.vaultastic.com"
File name	The destination filename will contain the content-list or metadata of the source data file. NOTE: It is advised to keep the name the same as the data file and change the file extension to .csv. This is important for the proper working of the Open Store Application	john-jan-2021.csv

Other Information

FIELD NAME	DESCRIPTION	SAMPLE VALUE (TO UPLOAD TO VAULTASTIC)
Send report to mail id	Email address which will get the notifications	"postmaster@baya.com"
